Reaching Out to the Indigenous People of Kg. Sg. Kejar

By Zahaimi Abdullah Sani

It’s not easy to approach the indigenous people especially the Jahai tribe who live in a very remote area in Kg Sungai Kejar and Kg Sungai Tahan, off Tasik Banding, Perak.

The journey to Kg Sg Kejar by boathouse took almost 6 hours. The 3-day 2-night ‘Khidmat Masyarakat’ program which was held from 16th to 18th Dec 2018 involved 40 UniKL RCMP staff including 22 medical students and 13 staff of Malaysian Resources Corporation Bhd. Foundation (Yayasan MRCB). The students were very excited to meet the Orang Asli.

Professor Dr. Abdul Karim Russ Hassan the program advisor said, “At one time we were not allowed to visit these villages to conduct medical health checks because they were suspicious of strangers. After a few attempts, they finally opened their doors to the UniKL RCMP team. In fact, we have established a good relationship with the Jahai tribe and have been here several times to do research and perform medical health checks. We have even distributed rice and cooked food for the people.”

Based on the research done recently most of the Jahai people suffered from skin problems such as hypopigmentation, pityriasis versicolor and itchiness. These conditions are neither painful nor contagious. But they can lead to emotional distress or low self-esteem. This type of fungus can also be found among many healthy people. It only starts causing problems when the fungus overgrows. Several factors may trigger this growth including humid weather and lack of hygiene. Meanwhile, the male community suffers from continuous coughing caused by heavy smoking from a very young age.

After having experienced dark nights without electricity at Kg Sg Kejar and Kg Sg Tahan, Dr. Karim had decided to return to the villages with a few UniKL students to install a solar energy project for the community.

Others who participated in the program were Dato’ Jamal Zakaria, Board Director MRCB and En Yusri Yusof (MRCB), Dr. Ibrahim Zubil Abdul Rahman, Dr. Siti Raihan, Pn Nor Shuhila Yusof, Ustaz Muhammad Iqbal Samadi and Cik Syahidatul Akmar Safian.
Greetings from the Editorial Board

It gives me great pleasure to write this message once again for this latest issue of the RCMP Newsletter. We are still at the beginning of this New Year of 2019 and it may not be too late to wish everyone a more prosperous and fruitful year ahead and for all the members of the staff who will be celebrating the Chinese New Year, my heartiest wishes for a wonderful and joyous new year.

The year 2018 was an eventful year for UniKL RCMP as we witnessed a lot of physical changes taking place at the college. Renovations to the main building are still ongoing and we hope it will all be done by the beginning of 2019 and the improvement in the facilities will hopefully lead to greater productivity on the part of the staff as well as the students.

We can be sure that the New Year will most likely bring more challenges and opportunities and we should be prepared mentally and physically to overcome the challenges and to avail ourselves to the opportunities that may present themselves. Let’s work with greater vigour and enthusiasm to move our institution to the next level of achievement.

This issue of the Newsletter which covers the activities conducted during the last quarter of the year 2018 will hopefully catch your attention and interest to read through the several activities that have been carried out by our students as well as our academic staff. You would especially be keen to know how our men and women braved themselves to help the destitutes at the refugee camps at the infamous Cox Bazar in Bangladesh. Many more articles are lined up for your reading pleasure, so please take some time to browse through the pages to get an idea of the activities conducted over the last few months at the college.

Thank you for your time and we will see you in our next issue of the Newsletter.

Bowling Tournament & Dinner with the Media Members

By Zahaimi Abdullah Sani

UniKL RCMP Corporate Communications Unit recently hosted a friendly bowling tournament for the local media at Ampang Superbowl at Ipoh Parade. The tournament was held in appreciation of the media’s support and close cooperation with UniKL RCMP over the years.

Mr. Thian Yee Wei, Head of Corporate Services Division said, “We thank the media for their coverage and reports on UniKL RCMP corporate social activities and hope the good relationship would continue.

Working with the media is important for us especially in areas where we need to improve public awareness about UniKL RCMP as a medical school as well as activities conducted by our students.”
Jelajah Etnik
Pharm Tech Students Learn About Orang Asli Culture in Tapah, Perak

By Zahaimi Abdullah Sani

A group of 86 Bachelor in Pharmaceutical Technology students from UniKL Royal College of Medicine visited three indigenous villages in Tapah, Perak to better understand the culture of Orang Asli Temiar as well as to study their lifestyle. The group visited three villages comprising Kampung Batu 5, Kampung Sg Chedun and Kampung Sungai Odak. “This is the first time most of the students have met and talked to the indigenous people. The three Tok Batin from the three different villages were very friendly. I’m impressed to see the villages were mostly clean and well-taken care. The villages were equipped with a clinic, library, surau and a multipurpose hall” said the Project Manager Nur Izzat Nazmi bin Ismail. “I love the fresh air and the simple life here” she said. “I was nervous before coming to this orang Asli settlement. I was brought up in the city and I have not had the opportunity to visit orang Asli settlements before. I was very surprised when I saw their houses were like normal houses. Previously, I was under the impression that they still stayed in a very remote place and hardly meet people and still go hunting for food. In fact, I was told by one of the kampung folk that there are two KKM staff nurses working here” said Pavitra Ramanaidu.

This study tour was sponsored by the State Government and UniKL RCMP.

Program secretary Mathilda Gubod a Sabahan said, “There are slight differences between the indigenous people of Sabah and those in Tapah, Perak. In Sabah, the indigenous people are more sociable, they are more health conscious and open-minded. I hope the indigenous people in Tapah will give serious attention to education in order to improve their economic status”.

The General Studies lecturer, Ibrahim Ahmad said, “The trip to the three indigenous villages at Tapah was a meaningful experience for the students. The students were able to communicate and observe the lifestyle and culture of the Semai’ tribe. We were grateful to the JAKOA for arranging the meeting with the Tok Batin in the three villages who are able to provide the necessary information for the students. On top of that, the students were thrilled to get the opportunity to ride on the army truck.”

Mr. Hisshamuddin Omar, CEO and Head of Campus UniKL RCMP who sent off the students earlier expressed his hope that such visits would inspire more students to engage in more of such activities in the future. The activity was also attended by Mr. Ahmad Zakuan bin Khairuddin, Dr. Kamarul Afendey bin Hamimi, Ustaz Ahmad Zullaili bin Zamri and Puan Zahaimi Abdullah Sani.
UniKL 15th Convocation Ceremony

By Zahaimi Abdullah Sani

The Regent of Pahang Confers Degrees and Diplomas at UniKL’s Convocation Ceremony

A total of 554 graduands of UniKL received their scrolls during the 15th Convocation Ceremony held at the Putrajaya International Convention Centre (PICC) from 13th to 16th Oct 2018. The graduands were from six different academic programmes namely Diploma in Pharmacy (86), Diploma in Medical Imaging (60), Diploma in Physiography (120), Diploma in Nursing (84), Bachelor of Medicine and Bachelor of Surgery (126) and Bachelor of Pharmacy with Honours (68).

Dr. Helen Catherina Anak Kemei from the MBBS programme was awarded the Best Student Award /The Council’s Award. Meanwhile Nur Fatin binti Zulkifli from Bachelor of Pharmacy (hons) received the President’s Award for the Bachelor’s category, and Nur Izzati Imanina binti Mohammad received the President’s Award for the Diploma in Pharmacy category. Pavitra Ravi Chantharan was awarded the President’s Award for Diploma in Nursing.

His Royal Highness The Regent of Pahang Tuanku Chancellor Tengku Abdullah Al-Haj Ibni Sultan Haji Ahmad Shah Al-Musta’in Billah presented all the special awards to all the outstanding students on the first day of the convocation ceremony on Saturday, 13th Oct 2018.

With this latest addition of 554 graduates from the 15th Convocation, the total number of UniKL RCMP alumni now stands at 4522 since its inaugural convocation in 2005.
Teknofest Gempak 2018

By Zahaimi Abdullah Sani

More than 300 students participated in the Teknofest Gempak 2018 this morning organized by Teknoputra Department, UniKL RCMP in collaboration with the Student Entrepreneurship Association (SEA) and International, Industrial & Institutional Partnership Division (IIIP). The program was officially graced by the Perak MARA Director, Puan Nor Zaini Binti Abu Kassim.

Nor Zaini in her opening remarks said: “We want to help and encourage youngsters mainly college students to get involved in business, in line with Mara’s objective to make entrepreneurship a career choice. College students are trained in preparation to enter the business world according to their areas of study and interest. It is entirely up to them to pursue their chosen area of interest. We are here to guide and support them. It will be a waste of resources if you don’t grab these opportunities”.

Also present at the ceremony were En Hisshamuddin Omar, Head of Campus UniKL RCMP, Prof Dr. Syed Rahim Syed Hamid, Dean of the Faculty of Medicine, and En Ahmad Zakuan Kairuddin Deputy Director of International, Industrial & Institutional Partnerships Division.

White Coat Presentation Ceremony

By Zahaimi Abdullah Sani

A white coat presentation ceremony for Bachelor of Pharmacy first-year students was held on 28 Sept 2018 at UniKL RCMP to officially welcome the new students. All sixty students proudly donned their white coats which symbolize the professionalism of Pharmacy. Bachelor of Pharmacy students will spend four years studying at UniKL RCMP and the students will be undergoing clinical training at public hospitals for 12 weeks.

Prof Dr. Ahmad Fuad, the Dean of the Faculty of Pharmacy and Health Sciences told the students to live up to the good name of the profession as well as the university.

After his speech, he presented the white coats to all the students. Witnessing the ceremony were Mr. Hisshamuddin Omar, CEO/Head of Campus, Mr. Ahmad Zawawi Musa, Deputy Dean of Academic FPHS, En Ahmad Zakuan Kairuddin, Deputy Director of International, Industrial & Institutional Partnership Division, Heads of Programs, lecturers, and staff of FPHS.
Our beloved Prophet (SAW) said about purity in one of His hadith: “Cleanliness is half the faith (Emaan).” (Sahih Muslim). So, it can be said that cleanliness and purity are part of our faith which we have to take seriously in our lives.

With this in view, Kelab Kembara Kita (KKK) took the initiative to conduct an activity called “Kembara Masjid” in compliance with the teachings of Islam which has indicated that cleanliness and purity are of the highest cardinal virtues.

This activity was held on Saturday 24th November 2018 with the help of fourteen students. A discussion was conducted and permission was granted by the person in charge, En. Hanif Chan from Masjid Muhammadian and En. Hanfiah Ab. Hamid from Angsana Mall prior to the activity.

A total of 120 prayer mats together with 15 ‘telekung’ and ‘sarong’ were collected. All the items were sent to the laundry and were returned to the said venue the next day. Such activity should be held again on a bigger scale in order to make sure that people can pray in a very clean and comfortable environment.
Mandarin Singing Competition
By Tay Yang Lian

UniKL RCMP Students won Excellent Awards at the 5th Mandarin Singing Competition for Malaysian Non-Chinese College Students, organized by Kongzi Institute, University of Malaya.

The final round of this singing competition was held at the Kongzi Institute, University of Malaya on 24 November 2018. It is one of the biggest annual events organized by the Kongzi Institute. Twenty participants from six universities from all over Malaysia participated in this competition which was watched by more than 150 people.

Twelve students from UniKL RMCP participated in the competition and two of them made it to the Final round. Diploma in Physiotherapy Semester 4 Student, Muhamad Syusyailil Amir Bin Mohd Yusof and Foundation in Medical Science student, Sarah Natalia Cheong Binti Nazrin Cheong won the Excellent Performance Awards in this competition.

Compliments and congratulation to all the winners and all the participants as well as the Mandarin lecturers Mr. Tay Yang Lian and Miss Wong Siaw Wuei for their effort and guidance in preparing the participants for this competition.

Culture Fest 2018
By Syahidatul Akmar Safian

“Culture Fest 2018” was organized on 14 Nov 2018 by Bachelor of Pharmaceutical Technology Semester one students as part of their Professional English 1 assessment. The main activity on that day was Culture Explorace with several checkpoints. All checkpoints required the participants to play games related to Malaysian culture.

Participants were required to play traditional games such as batu seremban, tuju guli, sepak bulu tangkis and ting-ting. Besides that, they also had to prepare the Indian traditional decoration called ‘kolam’ and play a few other IQ games. Before the closing ceremony, all the participants and the audience were served with several types of Chinese tea after a brief demonstration on the different types of tea by Mr. Tay Yang Lian and Ms. Wong Siaw Wuei of the General Studies Unit.

The event ended with the prize giving ceremony attended by Ustaz Muhammad Iqbal Bin Samadi, Head of SDD, Puan Monarunsita Bt Abu Bakar, Program Coordinator and En. Azrul Nazir B. Zahir, Executive of SDD. The Culture Fest has helped in a small way to give the opportunity to the younger generation to learn and appreciate our cultural heritage.
Operation Starlight 2, Malaysia’s Field Hospital at Cox’s Bazar Bangladesh

By Dr. Ibrahim Zubir Abdul

Operation Starlight 2 - Malaysian Field Hospital at Cox’s Bazar

The atrocities of the Myanmar military and vigilantes in Rakhine state on the Rohingya has received much attention from the world community. The United Nations has released a report which classified the massacre at Rakhine and the exodus of Rohingya to Bangladesh as a human crisis tantamount to a genocide.

To date, it is estimated that around one million Rohingyas are in several refugee camps at Cox’ Bazar, Bangladesh and nearly 100 thousand of them have found refuge in our country. Our Prime Minister has voiced out this issue in many international forums and has expressed his loss of faith in Aung San Suu Kyi, the Myanmar leader. Concerned about the escalation of atrocities and the poor response of world leaders on the plight of Rohingya people, Malaysia has initiated its own humanitarian programs to relieve the sufferings of these people to a certain extent.

The former Prime Minister had initiated health care services to several refugee camps at Cox’s Bazar. The Malaysian Armed forces was given the mandate to carry out the effort given their experience in setting up field hospitals in Bosnia and other areas affected by civil strife.

A dry run was successfully conducted at the Kuantan military complex. Finally, operation Starlight 2 was officially launched and the Malaysian Field Hospital (MFH) was established at Cox’s Bazar in late November 17, 2018. With cooperation from other Islamic countries such as Saudi Arabia, UEA and Brunei, facilities were slowly improved and upgraded. To date, MFH is one of the most popular hospitals and referral centers with state of the art facilities in Cox Bazar.

The operation of MFH is managed by the Defense Ministry with assistance from the Health Ministry and NGO’s which provide staff on a rotation basis.

Professor Karim and Dr. Ibrahim, the academic staff of UniKL RCMP in their capacity as NGO members were honoured to be invited by the Director General of Kor Perubatan Angkatan Tentera to serve at the hospital in November 2018 for a duration of 2 weeks.

MFH is a specialist field hospital which provides medical, surgical, O &G, pediatric, emergency medicine as well as other hospital support services. We thank our strategic partners who donated state of the art operation theatre equipment such as laparoscopic surgery and other facilities to facilitate the smooth running of the hospital. This hospital conducts on the average 3 major surgeries and a few minor surgeries every day. Among the types of surgeries are thyroidectomy, herniorrhaphy, splenectomy, and mastectomy to name a few.

With intensive care facilities and admission wards, MFH has become a referral centre for other NGOs which also run healthcare services and even for the Bangladesh government hospital.

Our trip to the relief centre went smoothly, and this would not have been possible without the support and encouragement of the CEO Tuan Haji Hishamuddin. We would also like to extend our thanks to the UniKL management which has given us this opportunity to serve the underprivileged Rohingya and to prove to the world community that our country is doing its best to relieve the sufferings of the refugees in Cox Bazar, Bangladesh.
UniKL RCMP organised the Reading Malaysia Campaign by inviting En. Muhammad Nizam b. Abdullah a young entrepreneur who is involved in publishing, books to give a talk on 28th November, at 3.30 pm at the Library.

He shared his experience as an independent publisher and encouraged youngsters to start writing if they aspire to become writers. His company welcomed anyone who would like to publish their work under TebuOne Press.

Thirty students of Foundation in Medical Sciences took part in this session. The program started with the opening remarks by the Head of Library, Puan Suhailla Ishak, followed by a poetry recital by the HusBand (RCMP band). The moderator of the program was Cik Nor Azrin Abdul Samad from the QA Department of the Faculty of Medicine. Before the program ended, we had a simple ceremony to present the “Top Borrowers Award” that went to two Year Two MBBS students.
Perak Medical Practitioners’ Society (PMPS) Mentor-Mentee Program

New Medical Graduates Participate in the Mentor-Mentee Program

By Muhammad Anuar Abdul Aziz

Early this year, the Perak Medical Practitioners’ Society (PMPS) launched a Mentor-Mentee Program, a service program where newly qualified medical graduates who are waiting for their internship to commence are placed under registered practicing doctors to provide them with valuable working experience and to prepare them in general clinical skills and improve their interpersonal and communication skills and their confidence level.

The program, in essence, is to help them make the transition from a fresh graduate to a practicing doctor. This will possibly help the graduates especially now that there is a long waiting period of up to 8 months or more before they can get their postings from the Ministry of Health.

On 1st February 2018, PMPS kick-started the first edition of the program with 7 graduates as mentees and they got to be attached to their mentors at their respective GP/Specialist clinic located in Sitiawan, Taiping and Ipoh. The program is to run for a period of three months. It is voluntary in nature where no allowance will be paid to the mentees but they may get an allowance for specific tasks or assignments carried out for the mentor or PMPS.

RCMP was invited to introduce new graduates to participate in the 2nd edition of the program and at an intro meeting organized by PMPS at KPJ Ipoh Specialist Hospital, 7 of the graduates plus 6 more from other Universities were accepted as new mentees. For the 2nd edition, the program started from 3rd September 2018 and is expected to run until the end of November, which is just before the postings which are expected to be finalized sometime in late December 2018 or early January 2019.

RCMP’s Alumni Relations Unit Wins an Award at MAG 2.0

By Muhamad Anuar Abdul Aziz

On the sideline of the recent 15th UniKL Convocation Ceremony at PICC in Putrajaya, there was a special dinner organized by the UniKL Alumni Association (UNIKMA) at UniKL MFI in Bangi on 14th October 2018.

The gathering entitled ‘Malam Aspirasi Graduan (MAG) 2.0’ was attended by about 400 of the current graduates who took time off from their graduation schedule to celebrate the completion of their studies with the rest of the graduates from all the twelve UniKL campuses.

The VVIP at the dinner was the President of UniKL who in his keynote address to the graduates, congratulated them on their achievements and reminded them to promote the good name of the University in whatever they do and invited them to come back to their Alma Mater as often as possible to meet and motivate their juniors and share their experiences. The other highlight of the night was the announcement and presentation of the following awards by the President:-

1. Top Alumni Engagement Award
2. Top Alumni Professional Achievement Award

RCMP emerged as the winner of the first award which went to the top Alumni Relations Unit that organized the most number of engagement activities involving the alumni community in 2018. The 2nd award went to the Alumni Unit from UniKL MSI. The dinner ended with a performance from Ruffedge, a renowned boy band in the country.
On 18 August 2018, fifty Semester 5 students of Diploma in Nursing UniKL RCMP made their way to SK Sg. Perah, located in Parit, Perak with Dr. Kamarul Afendy bin Hamimi, our Pengajian Malaysia lecturer. This was a Pengajian Malaysia project for this semester aimed at establishing a bond between the college students and the ‘Orang Asli’ (indigenous people) of the village. We also wanted to create awareness among the people on the various aspects of personal hygiene.

We started our program with the morning zumba exercise led by our committee members with all the participants, teachers and students taking part. We then moved to our main activity - games for the school children from the village. They were very happy to take part in all the games that we had prepared for them. Then we separated the grade one and two students into the different activities. Grade one was involved in a coloring competition and grade two in a motivational talk together with their parents.

The closing ceremony was attended by Mr. Tarmizi Mohd Jam, Parit Parliamentary Coordinator, and Mr. Taufik, Assistant Education Officer for Perak Tengah. The program was a big success and we received good feedback from the teachers, students and their parents. They actually expressed their hope that we could go again and conduct more programs like this in the future.
A total of 190 students from the Faculty of Pharmacy and Health Sciences received their awards for making it into the Dean’s List in a very special ceremony held on 22 Oct 2018 at UniKL RCMP. The number of students who received the honours from the different programmes is as given below:

1. Bachelor of Science (Honors) in Pharmaceutical Technology - 61
2. Bachelor of Pharmacy (Honors) - 58
3. Diploma in Pharmacy - 36
4. Diploma in Physiotherapy - 12
5. Diploma in Medical Imaging - 23

Professor Dr. Ahmad Fuad Shamsuddin, Dean of the Faculty of Pharmacy and Health Sciences, in his opening speech, reminded the award recipients not to become too complacent and get carried away with this achievement. “Please keep in mind, dear students, that your success is not solely from your own effort alone but you must also acknowledge the role played by your lecturers, parents and peers”.

He added, “This is a special ceremony to acknowledge and appreciate your academic achievements thus far. The award is the Faculty’s way of recognizing students who have distinguished themselves by achieving a GPA of 3.50 or better for this semester. I hope all of you will continue to work hard to maintain and improve on this success for the coming semesters.”

Also present at the ceremony were Mr. Hisshamuddin Omar, Chief Executive Officer/Head of Campus of UniKL RCMP; Associate Professor Dr. Syed Rahim Syed Hamid, Dean, Faculty of Medicine; En. Ahmad Zakuan Khairuddin Deputy Director, International, Industrial & Institutional Partnership Division and Mr. Ahmad Zawawi Musa, Deputy Dean Academic, Faculty of Pharmacy and Health Sciences

Congratulations everyone.
Award Winner VIHA 2018
By Pakirisamy Samanathan

Dr. Mahendran Sekar from the Faculty of Pharmacy representing University Kuala Lumpur, Royal College of Medicine Perak was presented the “Outstanding Researcher in Pharmaceutical Chemistry” award during the 1st Annual Healthcare Meet 2018 (AHM 2018) organized by “Venus International Foundation”, at Le Royal Meridien, Chennai, India on 29th September 2018.

AHM 2018 was attended by a total of 43 delegates representing 10 countries namely England, Australia, Oman, Jordan, Malaysia, UAE, Saudi Arabia, Philippines, Taiwan and India, involving people who are employed or practicing in Teaching Hospitals/Clinical Establishments/Research Laboratories/Academic Institutions.

The objective of Venus International Healthcare Awards (VIHA) is to identify and award outstanding contributions in teaching & research. It is an inaugural Annual Healthcare Meet intended to give due recognition to academicians, scientists, researchers & faculties working in different colleges, Universities, organizations & institutions across India as well as all over the world.

The evaluation criteria are based on parameters such as having written research paper/s as the first author, reviews & articles published, books & chapters written as the first author & edited, PI ship of projects, seminars organized, talks given as an invited speaker, Radio/TV talks, articles published in popular journals, patents filed & consultancy projects undertaken.

Congratulations to Dr.Mahendran Sekar on this fine achievement.

Traditional and Customary Games Carnival
By Syahidatul Akmar Safian

In conjunction with Hari Sukan Negara 2018, a Traditional and Customary Games Carnival (NCSC) was held on Saturday 13 October 2018. It was an initiative undertaken by Kelab Kembara Kita (KKK) to promote traditional games and expose the young generation to these games which were popular in the past.

Besides that, this event was also aimed at strengthening the bonding between students and staff since the teams with a mixture of students and staff were supposed to get extra points. These games are rarely played by today’s generation but surprisingly, the event received a very positive response especially from the students. There were many enquiries and keen interest shown by the students and staff since day one until the closing date.

Games like congkak, batu Seremban, tuju guli, tutup botol (ceper), kukur kelapa and sepak takraw were held at the UnikL RCMP foyer and seminar rooms, while terompah run, tuju selipar and tug of war were held at Taman Dr. Seenivasagam as these games needed a bigger space. The event ended at 3 pm.
River Rehabilitation

By Syahidatul Akmar Safian

In conjunction with Hari Sungai Sedunia 2018 (World River Day), Kelab Kembara Kita (KKK) organized an event known as “River Rehabilitation” held on 29 September 2018. A total of 29 students were involved in this project and it was led by the KKK advisor Miss Syahidatul Akmar Safian. It was a collaborative event with the Global Environment Centre (GEC), Majlis Bandaraya Ipoh (MBI) and the volunteers. GEC, a non-profit organization (NGO) which works on environmental issues of global importance agreed to give full sponsorship to KKK for this particular event which will be held twice. The second session of this event has been scheduled for November 2018 at the same location at Sungai Buntong, Ipoh.

All the participants were exposed to new information about water quality. Several tests were done on the water samples taken from Sungai Buntong and a briefing was given to explain the findings to all the participants. Then the participants were divided into two groups to clean two different parts of Sungai Buntong. It took about 2 hours to clean the part of the river as it was very dirty. Obviously, there is lack of awareness among the people regarding the importance of keeping water resources clean.

After the cleaning process, we assembled at the starting point again to do a quiz. The quiz was about the river, the GEC and the activities done on that day. The event ended at 1.00 pm after the prize giving ceremony. Our thanks to all those who supported this event.
